Items to initialize

The following items must be initialized for normal system operation in cases such as after the 12-volt battery is reconnected, or maintenance is performed on the vehicle:

Item	When to initialize	Reference
Engine oil maintenance data	After changing engine oil	P. 524
Tire pressure warning system	• When rotating the tires on vehicles differing with front and rear tire inflation pressures • When changing the tire inflation pressure by changing traveling speed • When changing the tire size	P. 535
